Garador Mobile App Update

Quick Info

Garador Smart Garage Access

An open garage invites unwanted entry, so give yourself the advantage of garage door control while you're away from home with Garador. Our Mobile App allows you to monitor and control your garage door while you're at work, or even on holidays. Helping to keep you, and what you value most, safe, all from your smart phone.

AT A GLANCE:

- **Your silent alarm:** Real time notifications alert you whenever your door is in use, open for an extended period or if your opener is in need of a service.

- **Activity log:** View usage history on the App so you know who has operated your garage door, and when.

- **Total control:** Allow full or temporary access for family, friends and deliveries, or, remove access at the click of a button.

- **Voice control:** Control your garage door with your voice using the hands-free function with Siri Shortcuts, Alexa or Google Home.

- **Gate control:** Pair your App and Garador Gate Opener for convenient and reliable home security. Full control to monitor access to your property, whether you're there or not!

Does the new App automatically migrate from the old app or do I need to download a separate App?

The new App will automatically migrate from the old App, you don't need to download a separate App.
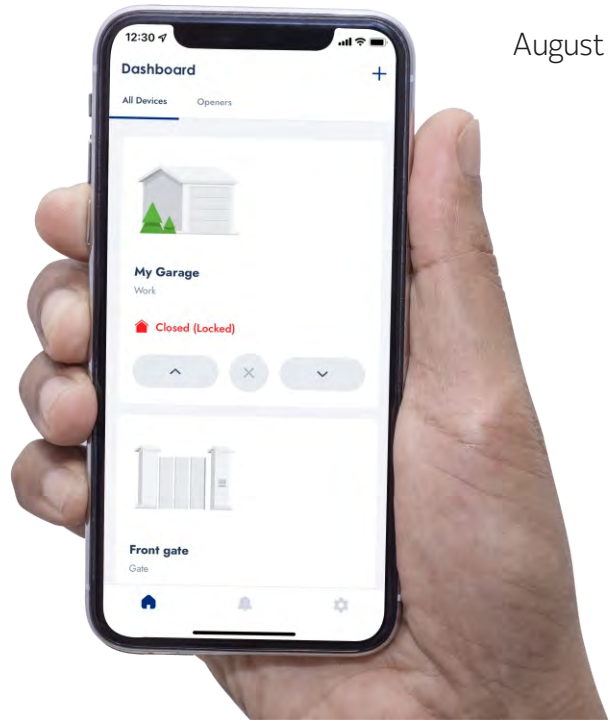

What are some of the improvement made to the new App?

- Improved user interface
- Improved user navigation
- Faster to use
- Improved set-up process

How many hubs can I set up in this new App?

There are no limit on how many hubs you can add to the new App.

Garador Mobile App Update

Quick Info

Do I need to log in/out in the App if I have multiple hubs?

All hubs will be displayed on the dashboard, you don't need to log out to access different hubs.

Is there any changes to the key set-up process on the opener?

No, there is no change to the set up process on the opener.

Can I still have different User Types?

Yes, you can still set up different User Types for each opener.
